

New IT Cluster in EC Stoner

Closure of access to Lift 48 on Level 6

From Friday 2 June until Friday 27 October 2017

We are writing to update you on the work taking place on Level 6 of EC Stoner to create a new IT Cluster to replace the Bragg Cluster (currently located in the Staff Centre).

From **Friday 2 June until Friday 27 October 2017** we will be refurbishing the area between rooms 6.74a to 6.62 on Level 6, to form the new IT Cluster.

As part of the work this means there will be **no access to lift 48 on Level 6**. Lift 48 is the wide, service-style lift accessed through the double doors near the Mailroom. **This lift will travel between Level 7 and Level 11 only**, during the construction period.

This work is to accommodate the planned £7.5m investment for the School of Earth and Environment to create multi-disciplinary meeting and teaching spaces for staff and PhD students.

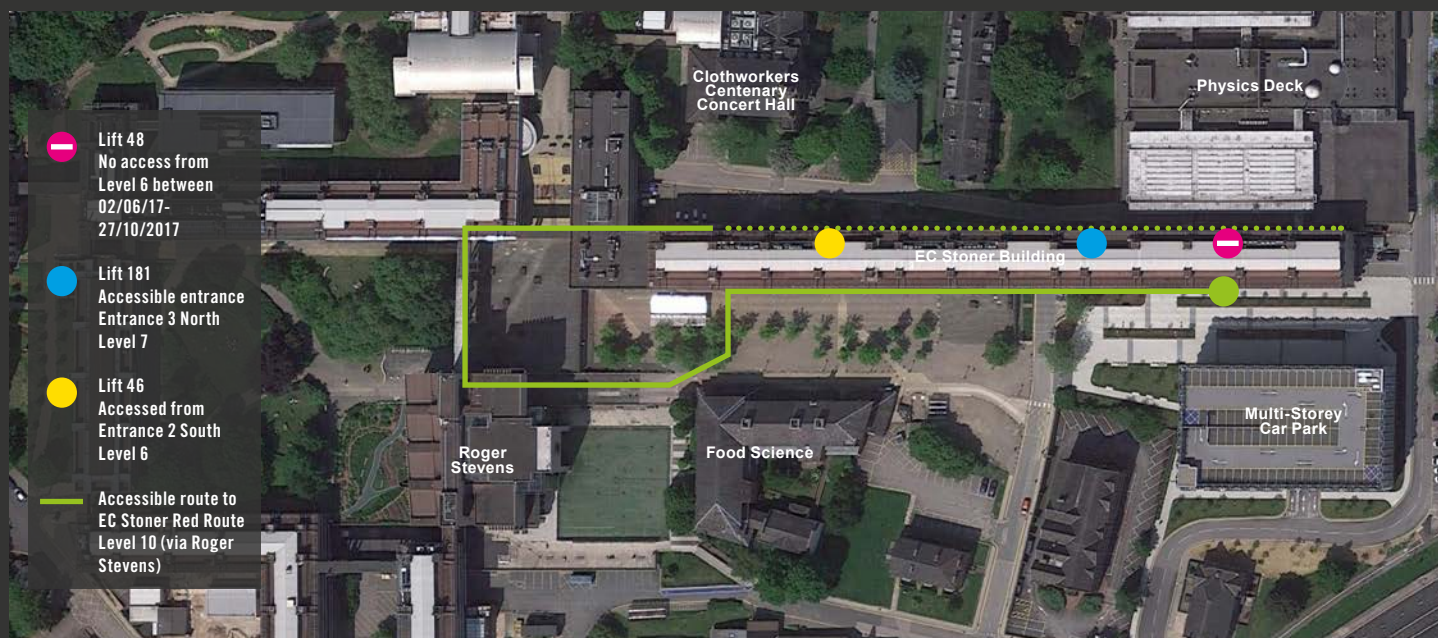

For staff, students and visitors this will mean:

- Using alternative lifts 46 and 181, as indicated on the map.
- Using the most accessible route from the south side (Multi-storey car park side) which would be to enter Roger Stevens via the ramp at Level 7, take the lift to Level 10 (Red Route) and make your way to EC Stoner to use one of the lifts (46, 48 and 181) to get to your place of work.
- Please note that **Lift 181 is only accessible from Level 7**
